Actions taken based on feedback

Curriculum:

As our institution is affiliated to the Abdul Kalam Technological University (from 2015), we are compelled to strictly follow the syllabus as set by the University. The University revises its syllabus, in order to ensure that its syllabus is relevant with respect to the latest technologies.

Academics:

- For students who are more interested in higher studies after graduation, we are providing GATE coaching classes for all interested students. The training classes are conducted by our faculty itself.

- Placement training program was conducted for all the final year students. The training concentrated both on soft skills and aptitude development.

- All faculties have opted for Google Classroom, to share their class notes and study materials and use it as a medium to give and evaluate assignments.

- To help weaker students perform better in university exams, we are conducting booster classes and remedial classes.

- To increase the practical knowledge of every student in core subjects, tutorial classes have also been conducted during class weeks.

- Workshops covering all the recent trends have been conducted.
