Sub: Recommending **Mr.SREENADH G V** for his Masters Degree- Reg13.10.2022

As the Associate Professor in the Department of Mechanical Engineering, it gives me great pleasure to write this recommendation letter for **Mr. SREENADH G V**. I have known him for the past three years. I have been his course mentor for the subjects' **Mechatronics, Metrology and Instrumentation and Business Economics**' and as such have known him well. During his course of study in this Institution, I had the Opportunity to observe and appreciate his academic caliber, as well as the versatility of his personality. I would rank him among the top 5% of the students I have taught in my experience of 15 years.

Mr. SREENADH G V has distinguished himself as one of the best students in the class. He was active and diligent class participant and brings together an Engineer's analytical approach, a keen grasp of basic facts coupled with mathematical knowledge, which he applies efficiently to problem solving. He has always exhibited fecundity of mind. He is an ardent learner and likes to go beyond the theoretical purview, to practical applications of his subjects and his perseverance enabled him to achieve his goals in the laboratory sessions and industrial visits.

He has involved himself in numerous organizations both in the campus and outside. As a believer in social justice he has been actively engaged in community activities. He has shown tremendous energy and boundless enthusiasm to participate, plan and organize various intra and inter collegiate events. In a nutshell, **Mr. SREENADH G V** is a multifaceted person with a zeal for academic, cultural and extra-curricular activities. I am confident that your esteemed university will be an ideal place for him to improve upon his existing skills through pursuing a Masters Program. I strongly recommend him for admission to the graduate program and I ensure he will serve as an asset during the course of study.
