MESSAGE FROM HOD

February 2016

Volume 6, Issue 1

The department of Electronics and Instrumentation was established in the year 2005. The main goal of the department is to produce graduates who will be technically sound, globally competent and well cultured. Currently our department is offering B.Tech in Applied Electronics & Instrumentation and M.Tech in Control and Instrumentation. The strength of our department is well qualified faculties, supporting staffs and industrial standard labs. The department is consistently working towards the goal through various training programs, interaction with research organizations, academicians and industries. We have recently arranged expert talk for second year and third year students, PCB design workshop for third year students. Two days workshop on P&ID Designing using CAD and three days workshop on Python and Raspberry Pi are the upcoming workshops for the month of February. Now I take this opportunity to congratulate the team members who worked for this news letter. - REEMA MATHEW A, HOD EIE
