FEBRUARY 2022

## HOD'S DESK

Prof. Laly James

Last year we welcomed a season of significant change and growth in our department, and I am pleased to note that a new edition of "ELECTRICAL GNOSYS" is ready to publish. The Newsletter is presenting a glance of growth of our department on many fronts. I appreciate the efforts of staff and their commitment towards the comprehensive development of our students and it is my pleasure to highlight some of the many ways we've evolved in last month.

Leadership is one of the most important skills you can learn to be the best person you can be and make the world a better place. The great thing is, you have the opportunity to practice leadership every single day in your home, at college, in sports and everywhere in between. We conducted our college election 2022 to elect representative from each class and from the elected candidates college representatives are also selected. Let me take this opportunity to congratulate the all the new and young leaders especially that of our department.

We are proud and glad to host the All Kerala IEEE PES Student Congress 2021. Our PES volunteers and Faculty worked really hard to make the event a success. Hope you all will have a fruitful year and great enthusiasm to achieve great goals.

### Vision

To evolve as a centre of excellence, to train students in contemporary technologies, to meet the needs of global industry and to develop them into skillful engineers instilled with human values and professional ethics.

### Mission

To produce competent and disciplined Electrical Electronics Engineers through delivery of quality education to meet the ongoing global challenges in alignment with technical education system and society.
