<p>About the company</p>	<p>For the past 10 years, we have been designing and developing custom applications on IBM Notes to help our clients overcome their toughest IT challenges. Although it's a cliché, we are very proud to say Notes is in our DNA. And we mean it. We know Notes in and out. We have been in XPages from the day it was introduced by IBM. While we have the Notes skills in our head, we have business values in our heart. We just don't deliver quality product/service. We make sure that we provide the right business value for the client.</p>
